Course Overview

This postgraduate course on kidney stone therapy, designed for urologists, is entirely devoted to the transfer of the skills necessary for performing all types of endourologic surgical procedures.

Minimally invasive urologic surgery has gained widespread acceptance due to the significant reduction in patient postoperative morbidity associated with these physical procedures. There is a need now to provide this continuing medical education activity as an update to familiarize urologists with the newest innovations in the diagnostic modalities, medical management and surgical therapy techniques in all aspects of stone treatment.

Since the widespread introduction of many of the minimally invasive endourologic procedures, such as percutaneous renal access and retrograde ureteroscopic surgery, there have been considerable technological advances in this field, and the expert faculty will share their knowledge and experience with the challenging skills of these new techniques. This training course will provide didactic sessions and panel discussions on the medical management of stone disease and the evaluation and diagnosis of patients.

One live surgical case broadcast will be presented, and the expert surgeons will share techniques, potential risks and complications of surgical management (Percutaneous Stone Removal - using a one tract endoscopic approach for a staghorn stone).

To supplement this didactic and demonstrative learning process, a hands-on laboratory experience, **limited to 40 registrants**, will allow the attendees to familiarize themselves with the new equipment and perform the challenging skills related to endourology - 1) Percutaneous Nephrostomy: PERC Mentor, Fluoroscopy, Endoscopic; 2) Flexible Nephroscopy; 3) Catheter, Guidewire, and Stent Placement Session; 4) Flexible Ureteroscopy Session; 5) Holmium Laser Session: URO Mentor, Stone Disintegration and Endopyelotomy; 6) Methods for Creating Nephrostomy Tract Hemostasis and Videotape Review and Discussion; 7) Skull Session on Metabolic Evaluation and Treatment.

We look forward to your participation.

Target Audience

Target audience will be board eligible/certified urologists from the United States, and any international countries with urologists associated with the American Urologic Association.

Prerequisites

Prerequisites will be certification with the American Board of Urology or equivalent Certifying Board of an international surgeon from their respective country.

Learning Objectives

- 1) Assess and evaluate the medical management of stone diseased patients.
- 2) Demonstrate ability to perform percutaneous renal access surgery for upper tract stone and obstructive disease.
- 3) Demonstrate ability to perform ureteroscopic intrarenal surgery for upper tract stone and obstructive disease.
- 4) Outline the complications and their management related to percutaneous renal access surgery.
- 5) Outline the complications and their management related to ureteroscopic intrarenal surgery.
- 6) Demonstrate knowledge regarding the equipment related to endourologic management of stone disease including guide wires, catheters, endoscopic instrumentation, and lithotripsy devices.

Accreditation Statement

The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement

The University of California, Irvine School of Medicine designates this educational activity for a maximum of **17.75** AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

While there are CME credits designated for participation in this course, this does not imply certification of skills acquisition

Disclosure

It is the policy of the University of California, Irvine School of Medicine and the University of California CME Consortium to ensure balance, independence, objectivity and scientific rigor in all CME activities. Full disclosure of conflict resolution will be made in writing via handout materials or syllabus.

Americans With Disabilities Act (ADA)

In compliance with the Americans With Disabilities Act, we will make every reasonable effort to accommodate your needs. For any special requests, please call Cynthia Shell at 714-456-5371 on or before December 15, 2006.

Audio and videotaping are prohibited.

Course Location

UCI Medical Center
Department of Urology
Astellas Center for Urological Education
101 The City Drive
Orange, CA 92868
Tel: 714-456-5371

Hotel Accommodations

Please call and make your hotel reservations directly with the hotel. Rooms are based on availability, and we suggest that you make your hotel reservation soon.

DoubleTree Hotel

(walking distance to UCI)
A ROOM BLOCK OF 40 ROOMS IS RESERVED AT THE DOUBLETREE.

*The room block is listed under:
"UCI New Frontiers Course"*

**Deadline to make your reservation:
Friday, December 22, 2006**

100 The City Drive
Orange, California 92868
Phone: 714-634-4500

Ayres Inn

(walking distance to UCI)
3737 W. Chapman Avenue
Orange, California 92868
Phone: 714-978-9168

Please Note

University of California, Irvine is not responsible for airline or hotel reservations. Please confirm meeting registration and hotel registration acceptance prior to purchase of non-refundable or penalty airline tickets.

NEW FRONTIERS IN ENDOUROLOGY® 2007, "DUST" DEFINITIVE UROLOGIC STONE THERAPY MEETING SCHEDULE

Friday, January 26, 2007

6:30-7:15 am	Registration and Continental Breakfast Stones: The Medical Side		Bldg 53 Auditorium
7:15-7:30 am	Why Stones: Formation and Prevention	Dean Assimos	
7:30-8:00 am	Practical Evaluation and Diagnosis in the First Time and Recurrent Stone Former	Fred Coe	
8:00-8:15 am	Imaging the Stone	John Denstedt	
8:15-8:45 am	Effective Medical Therapy for Stone Prevention - What and Why?	Fred Coe	
8:45-9:00 am	Medical Therapy for Treating Ureteral Calculi and Steinstrasse	Glenn Preminger	
9:00-9:10 am	Questions and Answers		
9:10-9:30 am	Break		Bldg 53 Auditorium
	Endourology for Urolithiasis: Success with Percutaneous Procedures		
9:30-9:50 am	Guidewires and Catheters: The Essentials for Successful Access	Ralph Clayman	
9:50-9:55 am	Questions and Answers		
9:55-10:10 am	Percutaneous Nephrostomy: Black and White (Fluoroscopic)	Dean Assimos	
10:10-10:25 am	Percutaneous Nephrostomy: Living Technicolor (Endoscopic)	Ralph Clayman	
10:25-10:35 am	Questions and Answers		
10:35-10:50 am	Rigid Nephroscopy: Technique and Stone Removal Instrumentation	Arthur Smith	
10:50-11:05 am	Flexible Nephroscopy: Technique and Stone Removal Instrumentation	Elspeth McDougall	
11:05-11:15 am	Questions and Answers		
11:15-11:30 am	PCN: How to Exit Bloodlessly: The Hemostatic Last Hurrah	Elspeth McDougall	
11:30-11:40 am	Questions and Answers		
11:40-1:00 pm	Lunch		Bldg 56 Room 113 Bldg 53 Auditorium
	Endourology for Urolithiasis: Success with Ureteroscopic Procedures		
1:00-1:20 pm	Access: Basic and Sheath	Glenn Preminger	
1:20-1:25 pm	Questions and Answers		
1:25-1:45 pm	Rigid Ureteroscopy: What to Buy and How to Use It	Mike Conlin	
1:45-2:05 pm	Flexible ureteroscopy: What to Buy and How to Use It	John Denstedt	
2:05-2:15 pm	Questions and Answers		
2:15-2:35 pm	Ureteral Stents: Basic, Tails, Loops, and Heavy Metal	Leslie Deane	
2:35-2:45 pm	To Stint with a Stent Use a Splint: Placing the Difficult Stent	Ralph Clayman	
2:45-2:50 pm	Questions and Answers		
2:50-3:10 pm	Break		Bldg 53 Auditorium
	Lithotripsy		
3:10-3:30 pm	Intracorporeal Lithotripsy: Something Old...Something New	John Denstedt	
3:30-3:50 pm	Shock Wave Lithotripsy: The Good, the Bad, and the Overexpensive: Is There a Future?	Glenn Preminger	
3:50-4:00 pm	Questions and Answers		
	The Stone Guidelines		
4:00-4:20 pm	Staghorn: "The Bigger They Are...The Harder They Hit"	Dean Assimos	
4:20-4:40 pm	Renal Calculi: Deciding What To Use (< 1 cm, 1-2 cm)	Arthur Smith	
4:40-4:50 pm	Questions and Answers		
4:50-5:10 pm	Upper Ureteral Calculi	Mike Conlin	
5:10-5:30 pm	Lower Ureteral Calculi	John Denstedt	
5:30-5:40 pm	Questions and Answers		
	Reimbursement		
5:40-6:00 pm	Billing for Stone: From Dust to Diamonds?!	Dean Assimos	
6:00-6:10 pm	Questions and Answers		
6:10 pm	Adjourn		

Saturday, January 27, 2007

7:00-7:30 am	Continental Breakfast		Bldg 53 Auditorium
	Live Case Broadcast		
7:30-9:30 am	Percutaneous Stone Removal - Using a One Track Endoscopic Approach for a Staghorn Stone		
9:30-10:00 am	Panel Session - Complications: Avoidance and Resolution Laboratories (Rotating Sessions)		Bldg 55 Lower Level
10:00-11:00 am	1) Percutaneous Nephrostomy: PERC Mentor / Fluoroscopy / Endoscopic		
11:00-12:00 pm	2) Flexible Nephroscopy		
12:00-1:00 pm	3) Catheter, Guidewire, and Stent Placement Session		
1:00-2:00 pm	Lunch		
2:00-3:00 pm	4) Flexible Ureteroscopy Session		
3:00-4:00 pm	5) Holmium Laser Session: URO Mentor / Stone Disintegration and Endopyelotomy		
4:00-4:20 pm	Break		
4:20-5:20 pm	6) Methods for Creating Nephrostomy Tract Hemostasis, Videotape Review & Discussion		
5:20-6:20 pm	7) Skull Session on Metabolic Evaluation and Treatment <i>(Each session is planned for 1 hour. All participants will rotate in small groups through all sessions.)</i>		
6:30 pm	Adjourn
